Customer Feedback

“Athena’s diverse range of solutions caters to various business environments, delivering an exceptional experience for operators and customers alike!”

JEFF W.

CEO, National Air Of Texas, Inc.

Athena Bitcoin Affiliate Partner

“One Bit at a Time has had the good fortune of working with Athena for the past five years. As I am writing this testimonial in gratitude and respect for the exceptional business practices Athena exudes. We have had other partners and no other BTM company comes close to the partnership-marketing-Web site/IT-and brand name recognition, and compliance procedures that Athena provides our business. The Bitcoin industry can be tough at times to navigate, and you need the right partner to thrive and the best one in my opinion is Athena.”

WHO WE ARE

Athena Bitcoin is the #3 Bitcoin ATM operator worldwide and the world's largest white label Bitcoin ATM software platform. That dual position gives us an advantage no competitor can match: we build the technology, and we run it ourselves.

As an operator, we make getting Bitcoin simple, fast, and secure. Find a nearby ATM, buy online, or purchase right in the Athena App, which also helps you locate machines, get directions, and unlock promos. Unlike exchanges, buying with Athena means customers maintain full ownership of their wallet. We never take possession or hold Bitcoin balances.

As a SaaS platform, we power Bitcoin ATM operators and deployers around the world, offering turnkey software solutions that handle compliance, fleet management, and transactions across thousands of machines worldwide.

With 10 years of operating experience and real people behind every product innovation and customer interaction, Athena is built for convenience, reliability, and speed right around every corner.
